Easy Navigation

A user-friendly home page allows you to quickly access all of the tools and resources provided by ThinkHR Comply. Everything you need to bolster your HR efforts is just one click away. Below are examples of just some of the tools offered by ThinkHR Comply.

Q&A Database

ThinkHR Comply's Answerbase has hundreds of questions that have been asked by employers. Users can quickly find reliable information by entering a few keywords or sorting through the Q&A catalog by category.

Employee Handbook Builder

You can easily build a detailed employee handbook with this simple tool. Employee handbooks set employee expectations in the workplace, improve relations between employer and employee, and limit legal exposure to a variety of claims.

Performance Review Tools

Useful documents that allow for effective and streamlined performance review, goal setting, and feedback for both and non-managers. Performance management ensures that your workforce is efficient and aligned with company goals.

Compensation Tool

The goal of the Compensation Tool is to provide timely, reliable, and useful compensation data. You will be able to compare salaries with specific job titles, allowing you to develop an accurate picture of the worth provided by the skills of applicant and current employees.

Job Description Builder

The Job Description Builder guides you through a step-by-step process for building meaningful job descriptions. Just enter a job title and the tool provides you with standard language from the federal O*NET database.

White Paper Library

Our library keeps you informed and compliant with the latest industry news and updates. You have unlimited access to this resource and have the option to be notified as future publications become available.
